**Employee Milestones**

*A special thank you to the following employees for all of their hard work and dedication over the years!*

**Lori Tatar-Staszak**

10 years | 1.22.2017

**Freddie Lohrmann**

5 years | 1.30.2017

**Michael J. Warren – General Manager:**

"We are very proud to issue our 2nd ever construction newsletter for the 1Q of 2017. This will be our way to keep in touch with our team members throughout the year. We plan on having another field crew meeting in December of 2017.

The construction market remains very strong with many projects recently awarded and many more on the horizon. We are taking our fair share of the work and continuing our expansive growth to the Northwest (Marshfield, Stevens Point, etc.) and metro Milwaukee market. Our support staff has also expanded so we can provide the office, supervisory and warehouse support that will be required to succeed on the jobsite. We should all be very proud of what we accomplished together and the bright future that lies ahead. With your help we will continue towards our goal of becoming the preferred drywall and acoustical ceiling contractor for the region. Thank you for all that you do!"

Position: Preconstruction Assistant  
Start Date: 2/13  
Location: Green Bay

## Featured Current Projects

### Kohler Inn on Woodlake

**General Contractor:** Mortenson Company

**Start Date:** January 2017

**Anticipated Finish:** August 2017

VerHalen has commenced construction on this quaint boutique style hotel in Kohler, WI.

Our work consists of exterior framing/sheathing, drywall, EIFS, and acoustical ceilings. We prefabricated the exterior walls to expedite the construction schedule and to eliminate congestion on the site. This fast-paced project is scheduled to complete in August of 2017.

### Nueske's Meat Products Headquarters

**General Contractor:** Scherrer Construction

**Start Date:** October 2016

**Anticipated Finish:** June 2017

The Nueske's expansion includes both interior and exterior designs created by interior designer, Cindy Morrow, who has been with VerHalen since November 2015. The 108,000-square-foot expansion will provide Nueske's with the space and equipment necessary to keep them at the leading edge of their industry. VerHalen not only played a part in the design, but is also working on drywall, acoustical ceilings, furniture, and windows and doors from Pella.

## Safety Corner

**What would OSHA cite this company for under OSHA Standards?**

Text Jenn the OSHA violations and automatically have your name entered into a mystery drawing. For assistance go to [www.OSHA.gov](http://www.OSHA.gov).
